Testimonials

“ Without VisaAide, we wouldn't have been able to play with a full team.

Wellington Phoenix Football Club has been using VisaAide for our New Zealand and Australian immigration needs since October 2020.

VisaAide has been a critical part of our Football Department player and staff New Zealand and Australian visa application and management processes. We had a large number of players that needed to travel in a short amount of time – and VisaAide made it happen for us. Without VisaAide, we wouldn't have been able to play with a full team, which would have had a serious impact on our team's performance and results.

The whole VisaAide team took the time to understand the demands and pressures of our visa requirements on both sides of the Tasman.

They ensured that our players and staff have at all times had correct visas and received them in a timely manner during an extremely challenging COVID-19 Pandemic era. I cannot speak highly enough of the professionalism and client focus that the team at VisaAide have afforded us over the last two years, and continue to provide us with.

I would strongly urge anyone needing New Zealand and Australian visa advice and management to utilise the services of VisaAide.”
